INTRODUCTION

This report, *The New Housing Fee Report*, was created to satisfy the requirements as outlined in Section 66.10014 of the Wisconsin Statutes and needs to be published annually no later than January 31. The requirements of this report contained within Section 66.10014 can be found below.

66.10014 New housing fee report.

(1) In this section, “municipality” means a city or village with a population of 10,000 or more.

(2) Not later than January 1, 2020, a municipality shall prepare a report of the municipality's residential development fees. The report shall contain all of the following:

(a) Whether the municipality imposes any of the following fees or other requirements for purposes related to residential construction, remodeling, or development and, if so, the amount of each fee:

1. Building permit fee.
2. Impact fee.
3. Park fee.
4. Land dedication or fee in lieu of land dedication requirement.
5. Plat approval fee.
6. Storm water management fee.
7. Water or sewer hook-up fee.

(b) The total amount of fees under par. (a) that the municipality imposed for purposes related to Residential construction, remodeling, or development in the prior year and an amount calculated by dividing the total amount of fees under this paragraph by the number of new residential dwelling units approved in the municipality in the prior year.

(3) (a) A municipality shall post the report under sub. (2) on the municipality's Internet site on a web page dedicated solely to the report and titled “New Housing Fee Report.” If a municipality does not have an Internet site, the county in which the municipality is located shall post the information under this paragraph on its Internet site on a web page dedicated solely to development fee information for the municipality.

(b) A municipality shall provide a copy of the report under sub. (2) to each member of the governing body of the municipality.

Process and Data Sources

The New Housing Fee Report was prepared by City of Manitowoc Community Development staff. The report was generated for the calendar year ending December 31, 2020, using permit and development records, the City of Manitowoc Permit and Review Fee Schedule, and the City of Manitowoc Municipal Code. The information contained within this report was provided by the City of Manitowoc Community Development Department and the Building Inspection Department.

RESIDENTIAL DEVELOPMENT FEES

On the following pages there is an inventory of fees imposed by the City of Manitowoc for purposes related to residential construction, remodeling, or development. This inventory, found on Table 1, was created using the *City of Manitowoc Permit and Review Fee Schedule* and the *City of Manitowoc Municipal Code*.

The residential development, construction, and remodeling fees within Table 1 are organized under the following categories: building permit fees, impact fees, land dedication fees, plat approval fees, stormwater management fees, and water or sewer hook-up fees. Per Wis. Stat. 66.10014 requirements, the table also includes miscellaneous fees that may be associated with residential construction or remodeling. Other fees that are required for new residential construction and development, such as plumbing, electrical or HVAC fees, are not included in the table.

The *City of Manitowoc Permit and Plan Review Fee Schedule* can be found in Appendix A or by visiting the City of Manitowoc's website under Building Inspection. Additional fees pertaining to plan review can be found under the Community Development Department on the city's website.

RESIDENTIAL FEES COLLECTED IN 2020

This section of the report calculates the average cost per unit to develop, construct, or remodel a residential dwelling within the City of Manitowoc. The calculation, provided in Wis. Stat. 66.10014 (2)(b), divides the total amount of fees the city imposed for purposes related to residential construction, remodeling, or development by the number of new residential dwelling units approved in the city in 2020.

Table 2, presented below, contains the number of new residential projects and total number of residential units approved by the City of Manitowoc in 2020. Table 3 displays the average fee amount collected per dwelling unit. Itemized fee collection amounts are presented in Table 4. This table includes the total number of permits approved, the total fees collected by the city in 2020, and the average cost per unit for each fee. Tables 2, 3, and 4 were produced using permit and development records. Please note that total collected fee amounts in Table 3 correspond only to the following: building permit fees (including WI Uniform Building Permit Seal and accessory structure fees), plan review fees, and occupancy permit fees. Separate permits are required for plumbing, electrical, and HVAC. These fees are not included in the calculation as city permit records do not categorize these types of fees by dwelling type.

In 2020, the City of Manitowoc issued 23 new residential building permits for the construction of 77 new residential units. As shown below, permits were approved for 15 single-family dwellings, three duplexes, and five multi-family structures. The city also approved 297 addition/alteration permits for one- & two-family homes and one addition/alteration permits for multi-family buildings. Various development fees were enforced for each project. The average fee per unit can be found in Table 4. The total number of units within each building can be seen below.
